

ADVANTAGES OF COMPLETING AN ASSOCIATES DEGREE FROM CASC AFTER HIGH SCHOOL GRADUATION (BEFORE GOING TO A FOUR YEAR)

1. Save money: You can save \$300 on average for the same course at a four year university if you take 20 courses, that is a savings of around \$6000.
If a student wants to live on campus the OVERALL cost is at least half of the cost to live on campus at a four year university.
(Ex. Approx \$4000 a semester compared to well over \$8000 a semester.)
2. The courses transfer to the four year universities. There are state-wide articulation agreements with all public colleges in Oklahoma and Carl Albert has agreements with UAFS.
3. Save Time - Take classes at our Sallisaw campus, Poteau Campus, or Online courses.
4. Smaller Class Sizes
5. Easier to get to know the faculty, staff, and other students on campus
6. Transfer to the four year university with friends who are also completing their degree at CASC.
